## Scientific Sessions

Engage in in-depth discussions and presentations on the latest research, breakthroughs, and clinical practices in nephrology. These sessions are designed to foster learning and innovation for improved patient care.

## Research Presentations

Explore innovative research findings that aim to advance nephrology and improve patient outcomes.

## Hands-On Workshops

An ultrasound-based workshop will be held and divided into three stations. The first session will be a twenty-minute lecture by each speaker. The second session will be a thirty-minute hands-on workshop at each station. Each station will have a max of ten participants, with thirty participants.

**AV Fistula Assessment:** Led by Dr. Venkatram M from East Coast Hospitals, Pondicherry. This session will cover detailed assessment techniques for arteriovenous fistulas, essential for vascular access evaluations.

**Transplant Kidney Evaluation (Doppler and Contrast):** Dr. Balasubramaniam J from Kauvery Hospital, Tirunelveli, will guide participants through Doppler and contrast ultrasound techniques specifically for transplant kidney evaluations.

**POCUS Volume Assessment:** A session sponsored by ISN or led by a Radiologist, focusing on Point-of-Care Ultrasound (POCUS) techniques for volume assessment, helping improve diagnostic accuracy in clinical settings.
